Learn about the Virginia Department of Transportation’s environmental study regarding plans to extend the 495 Express Lanes by approximately three miles from the Dulles Toll Road interchange to the George Washington Memorial Parkway in the vicinity of the American Legion Bridge to reduce congestion, improve safety and travel reliability, and provide additional travel choices.

In compliance with the requirements of the National Environmental Policy Act (NEPA) and 23 CFR Part 771, an environmental study in the form of an Environmental Assessment (EA), which includes a Preliminary Noise Analysis, was approved by the Federal Highway Administration (FHWA) for public review and comment. Pursuant to the National Historic Preservation Act, Section 106 and 36 CFR 800, information concerning the potential effects of the proposed improvements on historic properties is also included in the EA.

This project will involve a change in limited access control.

Stop by between 6:30 p.m. and 8:30 p.m. to learn more about the project and discuss your questions with VDOT staff. A short presentation will begin at 7 p.m.
